Projects

Área do Aluno

Mobile App Área do Aluno developed in Kotlin.

Versions

- Android

Banco do Brasil: abrir conta

Developed Banco do Brasil, implemented lastest mobile technologies (react native).

Versions

- iOS

XP Investimentos

Developed XP Investimentos, implemented lastest mobile technologies (native).

Versions

- iOS

Porto: seguro, cartão, crédito

Developed Porto, implemented lastest mobile technologies (native).

Versions

- iOS

Shopcoopera

Developed Shopcoopera, implemented lastest mobile technologies (native).

Versions

- iOS

SuperDigital

Developed Super Digital, implemented lastest mobile technologies (native).

Versions

- iOS

Uber Conta

Developed Uber Conta, implemented lastest mobile technologies (native).

Versions

- iOS

Digio

Developed Digio, implemented lastest mobile technologies (native).

Versions

- iOS

Remix

Developed Remix, implemented lastest mobile technologies (native).

Versions

- Android
- iOS

Features

- Complex Android application with native codes. Real-time photo and video manipulation integrated with leading social networks

cRIDE

Versions

- iOS

Features

- Complex SwiftUI application with native codes, manipulation integrated with leading social networks

cRIDE Driver

Versions

- iOS

Features

- Complex SwiftUI application with native codes, manipulation integrated with leading social networks

DMCard

Developed DMCard, implemented lastest mobile technologies (native).

Versions

- iOS

Jequiti com Você

Developed Jequiti, implemented lastest mobile technologies (native).

Versions

- iOS
- Android

PepBlast MP

Developed Remix, implemented lastest mobile technologies (native).

Versions

- Android
- iOS

Features

- Complex Android application with native codes. Real-time photo and video manipulation integrated with leading social networks

Jequiti com você

Developed and maintaining Jequiti iOS/Android, managed the team, implemented lastest mobile technologies.

Versions

- iOS
- Android

ZapJequiti

- Android

Alta Ipsum

Developed and maintaining Alta Ipsum iOS, managed the team, implemented lastest mobile technologies.

Versions

- iOS
- Android

Plantão Ativo

Developed Plantao Ativo, managed the team, implemented lastest mobile technologies (native).

Versions

- Android
- iOS
